PROFILE

IT specialist and React developer with a decade of hands-on experience keeping people and technology running. As an independent contractor I take on a wide range of projects — on-site equipment repair and preventative maintenance, workstation setup and troubleshooting, and fast, modern websites built with React and Node.js. Known for calm problem-solving, clear communication with non-technical clients, and work delivered on time.

EXPERIENCE

Independent Contractor

CURRENT

AUG 2021 - PRESENT

Self-employed · IT Services & Web Development · Dallas-Fort Worth, TX

- Deliver IT and web projects for numerous clients, from on-site hardware service to complete website builds.
- Troubleshoot, repair, and service client equipment; schedule and perform repairs and preventative maintenance.
- Train clients on equipment and repair questions, and document all work performed for each engagement.
- Maintain and performance-test demonstration equipment and support product demos in the lab and in the field.
- Help establish repair and maintenance service contracts; travel to client sites as projects require.

React Developer

CURRENT

JUL 2016 - PRESENT

Freelance

- Applied React component-lifecycle best practices, increasing turnaround speed by 23% with 100% deadline adherence.
- Partnered with client teams and senior management to adapt 50+ client websites to changing industry standards.
- Introduced isomorphic React and Node.js for web applications, cutting load times by roughly 35%.
